

Visionet's Service Offerings for Microsoft Dynamics AX 2012

Introduction

The Microsoft Dynamics AX platform has witnessed over a decade of evolution, and has steadily increased in both power and value to its users. This increased power and flexibility of Microsoft Dynamics AX 2012 has resulted in associated technological complexity which in turn has created operational challenges for enterprise organizations' in-house IT teams. Visionet Systems has a seasoned team of professionals who possess extensive experience of developing and deploying Microsoft Dynamics AX solutions and can help you successfully execute IT implementations, thus ensuring an optimum return on your technology investments.

Visionet Systems offers specialized services and solutions around Microsoft Dynamics AX for mid-size enterprises in the apparel, textile, retail and footwear verticals.

Our Services

Platform Upgrade Services

Visionet Systems provides services for upgrading from older versions to the most current version of the Microsoft Dynamics AX platform. We have considerable experience of managing upgrades from RMS, Microsoft Dynamics AX 4.0 or Microsoft Dynamics AX 2009 to Microsoft Dynamics AX 2012.

Development and Customization Services

Our capable development team has in-depth expertise in implementing customer business requirements using Microsoft Dynamics AX across a range of business functions and verticals. Highly seasoned, Microsoft certified developers produce tailor-made components and solutions. Our customization services provide cost-effective options for achieving desired business objectives.

Value-Added Services

Our value-added services offer ready-to-use modules that can be easily integrated with Microsoft Dynamics AX. These add-ons cover functional areas, such as, Business Intelligence, Product Lifecycle Management, Supply Chain Management, Supplier Relationship Management, Point-of-sale, CRM, EAI adaptors, and many more.

Administration Services

Visionet Systems has improved the operational efficiency of numerous enterprise customers by providing them with a wide range of maintenance and support services. Our service portfolio covers the entire range of Microsoft's enterprise-level products and solutions, including, Microsoft Dynamics AX 2012, Microsoft SQL Server 2008 & 2012 and Enterprise Portal (Microsoft SharePoint 2010 & 2013).

To find out more about how Visionet Systems can enhance your organization's Microsoft Dynamics AX 2012 experience, please contact our sales representative for a complimentary assessment.

Experienced Team

Visionet Systems offers ERP implementation services to global corporations and enterprises, and has a proven track record of excellence in delivery and innovation while demonstrating the highest levels of professionalism.

Our team of seasoned professionals and Microsoft-certified specialists possess a deep understanding of every product release in the Microsoft Dynamics AX ecosystem. We use our combined talent to transform your business by helping you successfully implement a Microsoft Dynamics AX-based ERP solution.

Flexible Delivery Options

Visionet Systems offers customers with an ideal combination of technology deployment and delivery methodologies.

Our on-site, off-site, time-and-materials, and fixed-price delivery models ensure that your Microsoft Dynamics AX upgrade, development, customization, integration, administration and maintenance project implementations will complement your existing business objectives and offer excellent value.

Industry and ERP Capabilities

Our service offerings are based on ERP implementation best practices and cover all functional areas of ERP systems across various industries.
